hydrobiologia volume 273 (1994), contents

no. 1

L. Lepistö, S. Antikainen & J. Kivinen: The occurrence of *Gonyostomum semen* (Ehr.) Diesing in Finnish lakes 1

M. A. Bozek, L. D. DeBrey & J.A. Lockwood: Diet overlap among size classes of Colorado River cutthroat trout (*Oncorhynchus clarki pleuriticus*) in a high-elevation mountain stream 9

M. Trémolières, U. Roeck, J. P. Klein & R. Carbiener: The exchange process between river and groundwater on the central Alsace floodplain (Eastern France): II. The case of a river with functional floodplain 19

S. Romo & M. R. Miracle: Population dynamics and ecology of subdominant phytoplankton species in a shallow hypertrophic lake (Albufera of Valencia, Spain) 37

R. Moreno-Amich: Feeding habits of grey gurnard, *Eutrigla gurnardus* (L., 1758), along the Catalan coast (northwestern Mediterranean) 57

no. 2

A. J. Martin, R. M. H. Seaby & J. O. Young: Does body size difference in the leeches *Glossiphonia complanata* (L.) and *Helobdella stagnalis* (L.) contribute to co-existence? 67

B. Pejler & B. Bērziņš: On the ecology of Lecane (Rotifera) 77

H. M. C. Chiu, I. J. Hodgkiss & B. S. S. Chan: Ecological studies of phytoplankton in Tai Tam Bay, Hong Kong 81

S. Nazneen & F. Begum: Distribution of molluscs in Layari River (Sindh), Pakistan 95

H. J. Dumont & Y. R. Reddy: *Phyllodiaptomus praedictus* n. sp. (Copepoda, Calanoida) from Thailand 101

B. C. Wainman & D. R. S. Lean: Methodological concerns in measuring the lipid fraction of carbon fixation 111

P. Tikkanen, P. Laasonen, T. Muotka, A. Huhta & K. Kuusela: Short-term recovery of benthos following disturbance from stream habitat rehabilitation 121

no. 3

L. Shamsudin & M. A. Sleigh: Seasonal changes in composition and biomass of epilithic algal floras of a chalk stream and a soft water stream with estimates of production 131

N. B. Edgar & J. D. Green: Calanoid copepod grazing on phytoplankton: seasonal experiments on natural communities 147

D. M. Kobuszewski & S. A. Perry: Secondary production of *Rhyacophila minora, Ameletus* sp., and *Isonychia bicolor* from streams of low and circumneutral pH in the Appalachian Mountains of West Virginia 163

G. Becker: Food preference by five trichopteran scrapers 171

R. Gälli, C. D. Munz & R. Scholtz: Evaluation and application of aquatic toxicity tests: use of the Microtox test for the prediction of toxicity based upon concentrations of contaminants in soil 179
